Clermont Grove Is For Tourists

CLERMONT—One of Central Florida's most popular tourist attractions is the Governor's Grove, owned by Minute Maid Groves Corporation, located just south of Clermont on U. S. Highway 27.

The Governor's Grove was established in 1958 in recognition of the 50th annual national Governors' Conference held in Miami Beach. In this one-acre grove there is a Valencia orange tree for each state and territory of the United States.

The aisles between the trees in the grove are sodded to provide ease in leisurely strolls among the trees. Picnic tables are also provided in a spot providing a panoramic view of Central Florida's grove lands.

Although no official count of visitors to the Governor's Grove is kept, it is estimated that more than 30,000 people stop each year to see their state tree.

Many Lions Attend Pahokee Meeting

Kyle Scott, deputy district governor and general chairman of the District 35-D Lions International cabinet meeting reported that the largest attendance ever was recorded for the day-long festivities that took place at the Lions Club in Pahokee Sunday afternoon.

Following the business session in the afternoon, in which approximately 150 Lions took part, the women and children of the guests were given a free fishing treat at the Breakwater in Pahokee.

The two candidates for the district governorship who attended the meeting were identified as J. B. Brewer, Jr., of Fort Pierce and Walter H. Keller, West Palm Beach. These candidates will be elected to the governorship at the state convention to be held in Tampa in May.

There were approximately 300 barbecued chicken dinners served at the gathering and about 200 were given away. The Glades area growers, packers and brokers fully cooperated with the Lions Club in furnishing the vegetables given to the guests at the meeting.

Lair Field Is Site Easter Services

The Greater Pahokee Easter Sunrise Service will be held at Lair Field, April 18, at 6:15. The music for the service will be under the direction of Mrs. Guthrie Colvard. The choirs of the First Baptist Church will bring the special music.

Funeral Services Ex-Sheriff Kirk

Funeral services will be held this (Friday) afternoon for John F. Kirk, Sr., former sheriff of Palm Beach County, who died Tuesday afternoon following a severe illness of emphysema. Services will be held at the Northwood Baptist Church in West Palm Beach of which he was a member.

Born in Dallas County, Mo. in 1904, Kirk moved to Pahokee in 1928, when he drove his uncle, a truck driver, there to see land he had bought. They arrived just ahead of the great 1928 hurricane.

He had intended to return to Missouri, but joined a semipro ball team in Pahokee and became a policeman to supplement his income.

In 1932, he married Inez Osborne of Lakeland and moved to Belle Glade as police chief. He quit his police job to become constable, and in 1944 was elected sheriff.

He was re-elected sheriff of Palm Beach County three times.

WONDER QUESTIONS

FROM THE BOOK OF KNOWLEDGE

What is inside a jumping bean? There, all coiled up, lives the caterpillar of a special kind of gray moth. When the caterpillar wants to stretch, it uncoils like a spring—and the sudden motion makes the bean jump and tremble.

Why don't people fall off the bottom of the earth? In space, through which the earth is constantly traveling, there is no top or bottom, no up or down. And, even if there were, the great mass of the earth, which pulls us and holds us to it—would prevent us from falling off.

Which has more bounce, a ball of rubber or a ball of steel? Strange as it may seem, a ball of steel bounces higher! What makes any substance bounce is its elastic or springy quality. Steel is one of the most perfectly elastic solids, while rubber is actually rather poor in elasticity.

These are some of the simple questions children have a special gift for asking—and the questions that stump most adults. For a free copy of Wonder Questions—and their answers, write: The Grolier Society, Inc., Dept. W-1, 575 Lexington Avenue, New York, N.Y. 10022. Offer is limited.

New $3\frac{3}{4}\%$ interest on U.S. Savings Bonds

*The Treasury explains why the new ones you buy and the ones
you own now are better than ever*

Q: How does the new $3\frac{3}{4}\%$ interest rate benefit me?

A: With Series E Bonds, the rate turns \$18.75 into \$25.00 fourteen months faster than the old rate. Your savings increase faster, because your Bonds mature in just 7 years, 9 months.

With Series H Bonds, the 10-year maturity period stays the same but more interest is paid you each six months. With both E and H Bonds the new rate works out to $2\frac{3}{4}\%$ for the first year and a half; then a guaranteed 4% each year to maturity.

Q: When did the new rate become effective?

A: June 1, 1959.

Q: Does the new rate change the Bonds I bought before June 1, 1959?

A: All older E and H Bonds pay more now—an extra $\frac{1}{2}\%$ from now on, when held to maturity. The increase takes effect in the first full interest period after June 1.

Q: Will the Bonds I own automatically earn their new rate?

A: Yes. You don't need to do a thing—just hold on to your Bonds.

Q: When my E Bonds mature, will they keep on earning interest?

A: Yes. An automatic 10-year extension privilege went into effect along with the new interest rate. This means your E Bonds will automatically keep earning interest after maturity.

Q: With the new interest rate, should I cash in my old Bonds and buy new ones?

A: No. The automatic $1\frac{1}{2}\%$ increase makes it unnecessary—and in almost every case it is to your advantage to retain your present Bonds.

Q: How are series H Bonds different from series E Bonds?

A: The chief difference is this: You buy H Bonds at full face value and the interest is paid by Treasury

check every six months for the life of the Bond. You buy E Bonds at 75% of face value and the interest accumulates to maturity. H Bonds provide income for living expenses, while E Bonds build a nest egg for the future. That's why many retired people hold H Bonds and families saving for, say, a child's education, buy E Bonds.

Q: In what denominations can I buy series E and series H Bonds?

A: E Bonds: \$25 (cost \$18.75), \$50 (cost \$37.50), \$100 (cost \$75.00), \$200 (cost \$150.00), \$500 (cost \$375.00), \$1,000 (cost \$750.00), \$10,000 (cost \$7,500.00).

H Bonds: \$500, \$1,000, \$5,000 and \$10,000. They are priced at face value.

Q: How safe are U.S. Savings Bonds?

A: Savings Bonds are an absolutely riskless way to save. The United States Government guarantees the cash value of your Bonds will not drop, that it can only grow.

Q: What if my Bonds should be lost, stolen or destroyed?

A: You can't lose. Every Bond purchased is recorded by the Treasury. If anything happens to your Bonds they are replaced—free.

Q: Where can I buy Bonds?

A: Buy E Bonds at any bank—it takes only a few minutes. Buy them automatically through the Payroll Savings Plan where you work. This Plan means you can have any amount you name automatically deducted every payroll. The Bonds you buy by installments are delivered to you automatically, too. Your bank will take your order for H Bonds.

Q: How do I help strengthen America's peace power when I buy U.S. Savings Bonds?

A: Peace costs money—money for military strength and for science. And money saved by individuals helps keep our economy sound.

Phone Books Up In Number Since 1964

A measure of the growth of the Glades Community is the large increase in the number of telephone directories being distributed to local subscribers.

Approximately 7,900 new directories are going to home and businesses, according to Pete McClellan, local Manager for Southern Bell Tel. & Tel. Company, compared with 7,248 when the last directory was delivered.

Delivery will take several days, but should be completed by April 17, 1965.

The new telephone directory has many new and changed listings and other helpful telephone information. It is distinguishable from the old green covered telephone book by its blue cover.

"A change in reporting your telephone troubles has been placed in the information pages of the telephone directory. Customers now dial 114 for Repair Service. This change will enable us to give better maintenance service to our customers," stated McClellan.

Off-Campus Courses By Universities

TALLAHASSEE—Florida's universities will offer 154 courses in off-campus locations beginning April 26, the Florida Institute for Continuing University Studies has announced.

Dr. Myron Blee, FICUS director, said the program for the coming trimester represents a leveling-off of off-campus activity. During the present trimester, some 278 courses have been offered.

The leveling off of activity by FICUS is a result of an opinion rendered by Attorney General Earl Faircloth limiting FICUS to 75 employees which resulted in a staff cutback.

TO SPEND EASTER

Mrs. Velda Baxter of Naples, is expected to spend the Easter holidays with her son-in-law and daughter, Mr. and Mrs. Lee Wroten, and family.

Farm Bureau Has New Law Comment

"The administration's proposals on farm legislation now before Congress will help no one but the bureaucrats in Washington."

This statement was made by E. H. Finlayson, president of Florida Farm Bureau Federation, from their state headquarters in Gainesville, Florida. This statement, issued on the heels of the President's recommendations to Congress, continues:

"These proposals give the Secretary of Agriculture unlimited discretionary authority over the individual farmers and consumers alike. The secretary would even have the power to tell each farmer and rancher how much of each commodity to produce. If the administration's proposals on wheat are accepted by Congress, it would mean a bread tax on consumers while the farmer would continue getting the same price or less for his wheat."

"It is unbelievable that the leader of the 'Great Society' would impose a bread tax on the people of low income groups, who spend a considerable portion of their income for food, and at the same time ask for a reduction in taxes on fur coats and jewelry."

"The recommendations on feed grains would not increase the farmer's income yet would increase the tax burden for support of these programs on the American taxpayers. In the case of rice

and wool, the administration's proposals would subsidize the inefficient producers while penalize the efficient ones."

"The recommendations on cropland adjustment and sale and lease of acreage allotments would only further complicate and expand an already expensive program that is in effect."

"All consumers should join the farmers in repudiating this effort by the federal government to further regulate the lives of farmers, thereby increasing the cost of food and fiber to the American public."

Spring Assembly For Witnesses

"How would you like to go to Riviera Beach for our Spring Assembly?"

"We will be going East for our assembly this Spring," Miles P. Crum, local presiding minister of Jehovah's Witnesses told the Witness Congregation in Belle Glade at their Sunday evening meeting. Mr. Crum explained further that the three-day religious assembly would begin April 30, 1965 at the Riviera Beach High School Auditorium under sponsorship of the Watch Tower Bible and Tract Society of Brooklyn New York.

Mr. Crum added that speakers from 19 congregations located in Central Florida, referred to as Florida Circuit No. 8, will participate in the presentation.

"There will be a model Ministry School Friday evening under the direction of Joseph Sala, minister, lecturer, and traveling representative of the Watch Tower and Tract Society." A Service Meeting will follow the Ministry School and will feature skits and demonstrations illustrating the Witnesses experiences in the field ministry designed to assist the Witnesses in their unique door-to-door preaching activity.

Saturday's activities will consist of a Baptismal talk and a group baptism of new ministers. A special program is scheduled for Saturday evening. It is entitled: Fully Embracing Our New Way of Life, and is based on the scripture text at 1 Thess. 4:1. The program will help all to willingly fulfill their ministry, that all might be active, energetic and alert ministers to the good news.

Sunday will feature a special talk by Sala entitled The Moral Breakdown—What Can Be Done About It?

Commenting on the Sunday talk, Mr. Crum referred to Sala's remarks that "What people need is a moral compass that does not shift its direction because of business relationships, political expediency or religious dogmatism. They need something that will always point in the same direction unaffected by outside influence." He went on to identify the Bible as the moral compass needed and declared "that as long as nations refuse to follow Godly principles of the Bible, they are lost as without a compass."

All meetings will be free and open to the public. Theme for the assembly will be "Willingly Fulfill Your Ministry."

If you've been sitting tight waiting for just your kind of car, with just your kind of power, at just your kind of price—wait no longer!

Chevrolet. It's a bigger, more beautiful car this year. Which is why that handsome silhouette could be mistaken for cars costing a thousand—even two thousand—dollars more.

Chevelle. This one's got lively looks, spirited power, a softer ride—and remarkable room atop a highly maneuverable wheelbase. No wonder it's today's favorite mid-size car.

Chevy II. No car so trim has a right to be so thrifty. But thrifty it is, with money-savers like brakes that adjust themselves and a long-lived exhaust system.

Corvair. Ask any '65 Corvair owner how it feels to drive a car with such easy steering, tenacious traction and responsive rear-engine power. And be ready to do lots of listening.
